Where Facebook can win for ChauTech

Facebook reach in the 15 target countries from the Target Market report (ChauTech Consulting GmbH, Sept 2026).

74-79%

Facebook reach in Switzerland, Austria, UK, USA, Canada, Ireland, Australia and the Netherlands. Almost 3 in 4 people can be reached.

38%

Facebook reach in Germany, our top-scored market (9.2). Facebook alone is not enough there.

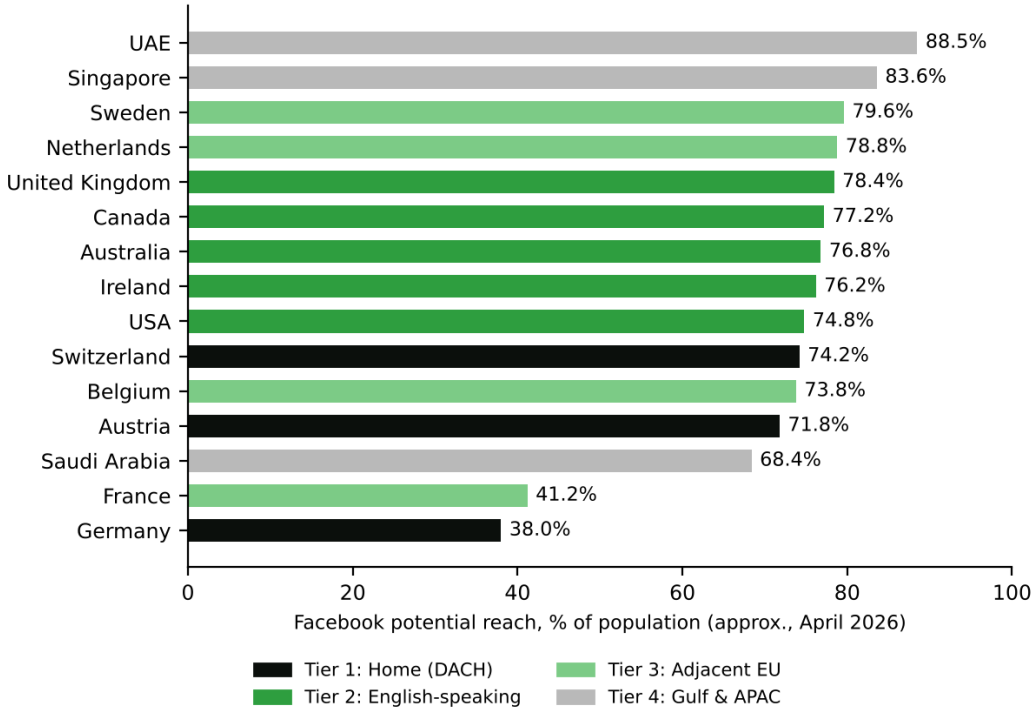

88.5%

Facebook reach in the UAE, the highest of all 15 countries. Sales there run through tenders, so Facebook builds awareness only.

$7 to $16

Cost per 1,000 views (CPM). USA is the most expensive ($16.08), Germany $9.05, Netherlands $8.58.

Facebook reach by country

What this means for us

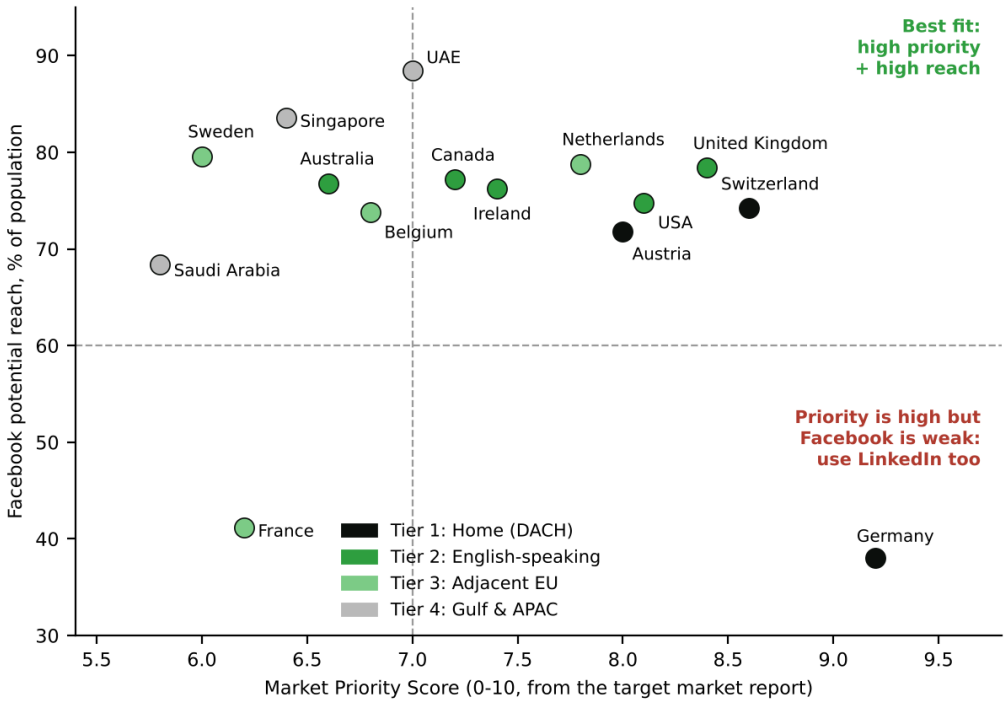

- **Switzerland and Austria** are our best Facebook markets in DACH: high reach (74.2% and 71.8%) and strong scores (8.6 and 8.0).
- **Germany** has the top score but only 38% reach. Here, Facebook supports LinkedIn and XING. It does not replace them.
- **English-speaking markets** (UK, USA, Ireland, Canada, Australia) all have 75-78% reach. Competition for attention is higher, so we need sharp posts.
- **Netherlands** is the best value outside DACH: 78.8% reach and a low CPM of $8.58.
- **UAE and Saudi Arabia** buy through tenders (RFPs). Use Facebook for brand awareness only.
- **Our Page today:** 1 follower. We start from zero, so we begin with the best-fit markets only.

Sources: reach [2] (Facebook Ads Manager potential reach, April 2026; margin of error about 3-5 points); CPM [3] (ecommerce benchmark; lead campaigns usually cost less); market scores and tiers [1]. Full references on page 3.

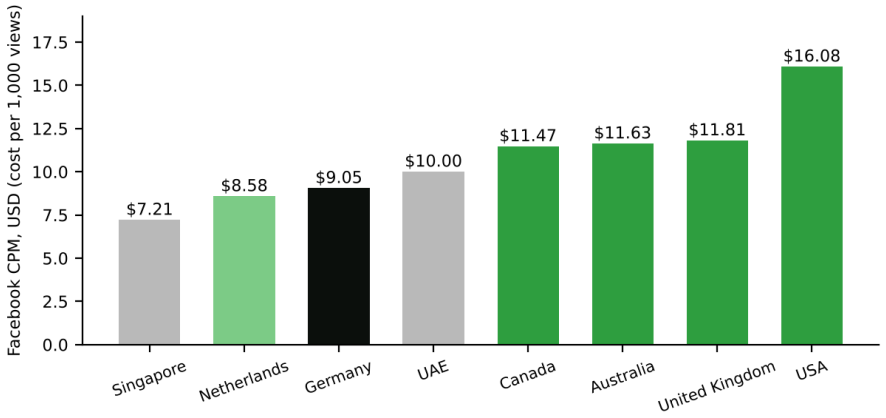

Priority score vs Facebook strength

We combined our own market score with Facebook reach and cost, so we spend effort where both are strong.

Market priority vs Facebook reach

Facebook cost per 1,000 views (CPM)

Source [3]. Cheapest: Singapore ($7.21), Netherlands ($8.58), Germany ($9.05). Most expensive: USA ($16.08). No data found for Switzerland, Austria, Ireland and Saudi Arabia.

Our Facebook ranking (where to compete first)

Rank	Countries	Facebook role	Why
1	Switzerland, Austria	Main channel (ads + groups + posts)	High score, 72-74% reach, same language and rules as home market
2	Germany	Support channel next to LinkedIn and XING	Top score (9.2) but 38% reach; use for retargeting and brand
3	UK, Ireland, Netherlands	Test with small ads	75-79% reach, medium cost, English or mid-market buyers
4	USA, Canada, Australia	Scale after first results	Large audiences, but CPM up to $16.08
5	Belgium, France, Sweden, UAE, Singapore, Saudi Arabia	Awareness only, later	Lower scores or tender-based sales

The strategy: how we compete on Facebook

Our competitors are other IT consulting, software and staffing firms. We win by being clearer, faster and more regular than they are.

Phase	Markets	Actions	Goal
Phase 1 Weeks 1-6	Switzerland, Austria, Germany	Fix the Page. Post 4 times a week in German. Follow 10 target companies daily. Join 5 IT and business groups. Boost the best post with 5 EUR per day.	500 followers, first messages from decision-makers
Phase 2 Months 2-3	UK, Ireland, Netherlands	Add English posts (AI, cloud, staffing). Run one small ad per country. Retarget website visitors from chautech.de.	Find which country gives the cheapest follower and lead
Phase 3 Months 4-6	USA, Canada, Australia, then Gulf and APAC	Put more budget into the best country only. Use Facebook for awareness, and move leads to LinkedIn, email and calls.	Steady lead flow at lowest cost

How we beat competitors

- **Show proof, not promises:** projects, results and client wins (with permission). Many IT firms only post general ads.
- **Be consistent:** 4 posts every week. Reply to every comment and message within 24 hours.
- **Local language:** German for DACH, English for the UK, Ireland, USA, Canada and Australia.
- **Stand out with our values:** Professional, Flexibility, Innovative, Trusted.
- **Three services in focus:** IT consulting, software engineering (AI, cloud), recruiting and staffing.

Content mix each week

- **Tuesday:** IT tip (AI, cloud, hiring)
- **Wednesday:** one service
- **Thursday:** team and values
- **Saturday:** short video or job post
- Every post ends with one call to action: Follow, Message us, or chautech.de.

Competitor check (every month)

- Pick 5 competitors in each target country.
- Note how often they post and which posts get most likes.
- Copy what works, do it better, and avoid what fails.
- Track our own: followers, reach, comments, messages, leads from Facebook.

Targets: Week 2: 100 followers. Week 6: 500 followers with free work, 1,000 with a small ad budget. **Budget:** 5 EUR per day for the first test, to be approved by the CEO. Check Insights every Friday.
