XING Groups: what ChauTech needs to know

XING closed its Groups in January 2023. Our Facebook plan uses groups, so for XING we use other channels. Facts with sources [1] to [4].

11 Jan 2023
XING shut down Groups and its event market for good [1].

18 Aug 2022
Last day members could create a new group [1].

10 Jan 2023
Last day group admins could save their group content [1].

Since 2016
XING offers Business Pages, now the main home for company content [2].

How the shutdown happened

What this means for us

- **No XING Groups exist anymore** [1]. We cannot join or post in groups on XING.
- **Why it closed:** XING refocused on career orientation, and the features tied up too many resources [1]. Today the platform focuses on job placement [3].
- **Some pages are outdated:** Wikipedia still lists groups [4], and a 2025 marketing guide still mentions topic groups for targeting [2]. We do not rely on them.
- **Where discussions went:** comments on topic pages in XING News, direct messages and group chats [1]. This was stated in 2022, so we check what is available today.
- **So our work moves** to the company page, direct contact and Lead Ads (page 2).

What we use instead of groups

The sources show four ways to reach people on XING without groups.

Channel	What the source says	How ChauTech uses it
Business (company) Page	Offered since 2016. Advised: logo as profile image, short description, value statement, complete information, regular updates, a named contact person [2].	Main home for our updates: tips, services, team, jobs
Topic pages in XING News	Named as the new place for discussion; comments replace group discussions [1].	Comment helpfully on IT, AI and recruiting topics (check they still exist)
Direct messages and group chats	Named as the other replacement [1]. A basic account can message only existing contacts; Premium is almost essential for lead generation [2].	Personal outreach to HR directors and department heads
Lead Ads	Three steps: define audience, design the ad, generate leads. Up to 3 custom questions. Leads exported as CSV for a CRM [2].	Collect leads after we receive a price quote from XING

The gaps we must be honest about

- No figures on how many XING groups or members were affected [1].
- No data on how many people read or comment on XING topic pages today.
- No public price for Lead Ads was found [2].
- Wikipedia and one marketing guide still show groups, which conflicts with the closure [1] [3].

Our plan (2 weeks)

- Complete the company page: logo, description, values, contact person.
- Log in and write down which topic pages are open for comments.
- Get Premium, then send personal connection requests with a short note.
- Ask XING for a Lead Ads quote and report it to the CEO.
- Report what works after 2 weeks.
