What happens when we post on the Facebook Page

Every post has one first job: awareness. People must see ChauTech before they can trust us, follow us or contact us.

One post's journey

Awareness funnel

Steps and points at each stage

Stage	What we do	What we measure (Meta Business Suite, Insights)
1. Awareness	Post 4 times a week. Tips, services, team and values. Short video on Saturday. Join IT groups and follow target companies.	Reach, impressions, video views
2. Interest	Ask a simple question. Reply to every comment within 24 hours. Invite people who liked the post to follow the Page.	Likes, comments, shares, new followers
3. Consideration	Put chautech.de in every post. Use the Contact Us button. Retarget website visitors with a small ad.	Link clicks, profile visits, messages
4. Lead	Answer messages fast. Ask for name, company and need. Write the lead in our lead sheet.	Number of leads from Facebook
5. Client	Move the lead to our sequence: LinkedIn connection, email next day, call on day 3 to 4.	Meetings booked, clients won

Awareness goals: 100 followers in week 2, 500 in week 6 with free work, 1,000 with a small ad budget. Check Insights every Friday and make more of the posts with the highest reach.
