What happens when we post on the XING Page

Every post has one first job: awareness. Decision-makers in Germany, Switzerland and Austria must see ChauTech before they trust us or answer our message.

One post's journey

Awareness funnel

Steps and points at each stage

Stage	What we do	What we measure (XING page statistics)
1. Awareness	Post regularly in German: tips, services, team and values. Complete the company page with logo, description and a named contact person [2].	Post views, followers
2. Interest	Ask a simple question. Answer every comment. Send a personal connection request with a short note to HR directors and department heads.	Reactions, comments, accepted requests
3. Consideration	Put chautech.de in every post. Message people with Premium [2]. Test a Lead Ad after a price quote [2].	Link clicks, replies, form entries
4. Lead	Reply fast. Ask for name, company and need. Write the lead in our lead sheet (Lead Ads export as CSV [2]).	Number of leads from XING
5. Client	Move the lead to our sequence: connection, email next day, call on day 3 to 4.	Meetings booked, clients won

Good to know: a basic XING account can message only existing contacts, so Premium is needed to reach new people [2]. Check every Friday which posts got the most views and repeat them. Follower targets are set after the first 2 weeks.

Reference [2]: HubSpot Germany, "Xing-Werbung fuer Unternehmen", blog.hubspot.de/marketing/xing-werbung (updated 13 March 2025): Business Pages, Premium, Lead Ads. Statistics shown in XING page statistics should be checked in our own account.
