XING: all methods in one funnel

XING is now mainly a jobs network, so fewer methods exist than on Facebook. Organic is free; paid is advertising or recruiting products.

ORGANIC	Free company profile, staff profiles linked to ChauTech, company news stream (check what we can post)
PAID	Sponsored Posts, Display ads, Sponsored Video Posts, Sponsored Articles (industry newsletter, 5 million recipients), job ads
ORGANIC	kununu employer reviews, visitors mark us as a wish employer, connection requests
PAID	Employer Branding Profile: photos, video, statistics
ORGANIC	Direct messages (Premium needed for new people), chautech.de link on the profile
PAID	Sponsored Mailings; TalentManager for candidate outreach
ORGANIC	Replies and calls from direct contact
PAID	Lead Ads (contact form, CSV export); job applications

Jan 2023

XING closed Groups and its event market for good [1]

From 395 EUR

for a standard XING job ad; with video from 795 EUR; pay-per-click from 1.85 EUR per click [2]

20,000+

recruiters are active on XING, which makes it strong for our hiring and staffing side [3]

Not available on XING: Groups and the event market (closed January 2023) and the old news content area [1] [3]. One source also marks newsletters, live streams, polls, video posts and document carousels as not available, and calls text posts heavily restricted [3]. Sources differ, so we confirm in our own account.

XING: which method gives the most reach

XING does not publish reach by post type, so we use the facts that do exist: response rates, engagement and paid minimum budgets.

Paid methods: minimum budget [3] [4]

XING vs LinkedIn (baseline = 100) [1]

22% higher

response to regional B2B inquiries on XING than on LinkedIn [1]

5 million

recipients of XING's industry newsletter, 33 industries. Sponsored Articles run there [3] [4]

2 to 5 EUR

minimum cost per click for XING ads; 5 EUR is often recommended. Conversion about 0.35% [2]

What the data says: direct contact gets the best response on XING, posts alone reach less than on LinkedIn, and paid reach is costly. At 2 to 5 EUR per click and 0.35% conversion, one conversion costs roughly 570 to 1,430 EUR (our calculation, one source). So we start with organic methods and run paid only as a very small test.

XING: all methods and tasks

XING changed a lot since 2023. These are the methods that exist today, with the facts we found.

Method	Our task	What the facts say	Cost
Free company profile	Complete it: logo, description, industry, contact	Free version has limited design, one admin, no Business Pages and no statistics [4]	Free
Company news stream	Share short German updates when allowed	Profile has a news stream for updates [4], but another source says text posts are heavily restricted [3]. We check our account first	Free
Staff profiles	Staff list ChauTech as current employer	Employees are listed on the profile automatically [4]	Free
kununu reviews	Ask happy staff to review us	kununu ratings can show on the profile [4]	Free
Direct contact	Connection requests and messages to HR directors and department heads	22% higher response than LinkedIn for regional B2B [5]. Messaging new people needs Premium [3]	Premium about 8 to 10 EUR a month [3]
Articles (Insights menu)	Low priority	Articles moved to the Insights menu in 2023 and play little role [3]; no reach figure found	Free
Job ads	Hiring and staffing roles	From 395 EUR; with video from 795 EUR; pay-per-click from 1.85 EUR [2]	From 395 EUR
Employer Branding Profile	Later, if hiring grows	357.50 EUR a month (1 to 50 employees); adds photos, video, statistics, several admins, full kununu [2] [4]	357.50 EUR a month
TalentManager	Candidate search and outreach	Core from 366 EUR and Pro from 474 EUR a month [5]	From 366 EUR a month
Sponsored Post and Lead Ad	Small test after setup	From 5 EUR total and 2 EUR a day; CPC at least 2 EUR; conversion about 0.35% [7] [8]	Pay per click
Large paid formats	Not now	Display from 4,000 EUR, Video Post 5,000 EUR, Sponsored Articles 10,000 EUR (one source: 50,000 EUR), Mailings 30,000 EUR [6] [7] [8]	From 4,000 EUR

Request to the CEO: approve the free tasks (profile, staff, kununu, direct contact with Premium) and one very small paid test. Job ads and TalentManager fit our hiring side. Larger paid formats stay off until a test shows a cost per lead.

[1] to [8] as on page 1, and [5], [6], [7], [8] as on the reach page (page 2). Post counts and the Request are ChauTech proposals. Prices and features may have changed; confirm in our XING account before the CEO decision.
